DAVID FUTTER TALKS ABOUT ITO

"I've been fortunate enough to purchase and stand many outstanding stallions over the years at Yorton, and I genuinely believe that, in the future, Ito will stand shoulder to shoulder with all of them. Having judged his crop of foals based purely on confirmation and temperament, we are confident that Ito's future looks very bright.

He is being supported by some fantastic mares and will receive excellent care through the Yorton system."

DAVID FUTTER

"I have supported Ito from the beginning. He consistently produces foals of good size, quality and confirmation which I value highly and which is clearly reflected in their sale prices, both at home and in the sales ring. We sold one very well for £20,000 in Goffs last year."
